Hopscotch
4-AP Research

Step 1 - Who am I as a researcher?

Step 2 - What am I wondering about?

Step 3 - What do I already know? What have others done before?

Step 4 - How will I study it?

Step 5 - What is my research question?

Step 6 - What is the data to collect?

Step 7 - How will I analyze the data?

Step 8 - How will I ensure my evidence is trustworthy?

Step 9 - How will I be ethical and safe in my study?
